PROJECTS

Dungeons and Dragons Monster Index | https://github.com/sjpcp5/DnDMonsterDex |
https://sjpcp5.github.io/DnDMonsterDex   Backend Developer/ Project Lead

- A free modular Dungeons & Dragons monster manual. Complemented with a comedic relative monster image from Giphy.
- The project provides a search interface to find monsters for reference while playing D&D. I was responsible for the development to call the image API to generate a relative image for each monster and ensuring our team to met our goals
- Tools/Languages: Javascript, AJAX, JQuery, Version Control, Kaban, HTML5, CSS Tachyon, Visual Code, Slack

RELEVANT WORK EXPERIENCE

U.S. Army Corps of Engineers   June 2017 - Currently
Geographer   Kansas City, Missouri
- Smart Collaborator: Received cash award for keeping up three team projects on task while most of the branch was deployed on emergency operations.
- Internally Motivated Project Starter: Sought for project opportunities to learn and work in web development and infographics.
- Creative Problem Solver: Received a cash award for efficiency and leading field surveys and setting up an ESRI data collection of real property for the 88th Environmental Cleanup project.
